The Mil Cl have resolved that it is not possible to show any concession in the matter of supply of water to the Engineering College & the workshop.

Subd for orders.

Mil 29/6 JW — Mr Chief Engr has suggested that the Engineering College workshop ~~may be treated~~ which is now treated as a non-domestic connection for purposes of water supply may be charged at the rate of 8 as per 1000 gallons of water supplied, without any free supply, & by amendment the case of the Central College Bangalore — vide note No L 7596/Mil/42-43 dt 24-2-43 (Flag A)

Continuation Sheet | File No 7815 / Current No | of | Page

The Bangalore city M who were consulted in the matter are strongly of opinion that the Engineering College should continue to pay at the rate of Rs 1/- per 1000 gallons of water supply

The case clearly falls under rule 83 as revised in note dated 24-2-42 (Flag A). The Engineering College & Workshop is a first public building and the buildings are used solely for public purposes similar to the central college in every respect. Hence the proposal of the Chief Engineer may be accepted, although the M C of Lawrence agrees to it

Law Secy) for 29/6/43

The proposal of the C.E may be accepted as the Engineering College & the Workshop are public buildings not, however commercial ones
